Our Story

[Watch video »](#)

After the loss of his wife and father-in-law just 10 days apart, doctors prescribed heavy sedatives to help Jeff cope with the grief and anxiety he was processing. This started a spiral effect in his life that spread beyond himself. By chance, a friend provided him with some home-made cannabinoid enriched products. After finding relief from these products Jeff had them tested only to find out they were rich in CBD.

With some hard work, determination, and the help of CBD Jeff has able to free himself from the bonds of being over prescribed. With a surge of passion, he made it his personal mission to help five people a month discover the benefits of CBD. This led him to start MHR Brands in early 2013.

As people all over the world began learning about hemp oil, the demand for products skyrocketed. Jeff's daily regimen became a nonstop shuffle of shipping orders and answering phone calls. Needless to say this turned his side gig into a new full-time business.

Frustrated by the lack of quality CBD products available and minimal manufacturing options to choose from Jeff started his own operations. In 2014, with growing capacity and feeling the need to help more people US Hemp Wholesale was created to serve the business community.

These experiences have allowed us to build a strong understanding of the need in the community and gave us the desire along with the expertise to help others succeed. Since 2013, we have been the industry leader in working with both traditional and E-commerce businesses. We help them, help their customers gain access to high quality craft cannabinoid products.

Here at MHR Brands and US Hemp Wholesale we all about helping people and being healthy! Partner with US!
