The template lines will not be printed on your final product.

**The label pictured in this mockup is 5.1" x 1.75" and fits the container perfectly. However, this template is for a 4" x 1.75" label, which is the closest we can get with our in-house printing service. For the larger size, please seek third-party printing for your labels.

APPROVAL PROCESS

1. Design your label in this template file and send it back to us in AI or PDF format.

2. We will review your design and send this file back to you for final review and approval, or send you any changes that need to be made.

3. Once approved by you, the label will be finalized in our system for production.

You are responsible for the accuracy of all spelling and grammar. You assume responsibility for reprint costs incurred to correct such errors found after the job is printed.

If this is a custom formulation or will have custom packaging, this proof may not accurately reflect the final product. Please confirm those details with your sales representative.
